**amfAR**

MAKING AIDS HISTORY

## From the Chairman and the CEO

Dear Friends and Supporters:

The time for a cure for HIV has come. Once unthinkable, the idea that this might be possible has steadily gained currency among the scientific community. Our belief in the possibility of a cure has been unshakable for more than a decade, and in 2011 we awarded more than \$6.8 million to leading AIDS researchers worldwide, many of them focused on cure-related studies.

A guiding principle at amfAR is to take on the most intractable challenges by bringing the best minds together. Our ARCHE program—amfAR Research Consortium on HIV Eradication—is a prime example of this. We formed ARCHE in 2010 to support and encourage teams of scientists to collaborate in pursuit of a cure. Already the consortium is generating exciting new data, new clinical studies, new partnerships, and new optimism about a cure. We aim to build on this momentum, investing heavily in this flagship initiative in the months and years ahead.

Our policy program and international initiatives are similarly underpinned by the idea that progress on AIDS is best advanced when people work together, not in isolation. Our TREAT Asia program, now in its 12th year, is widely regarded as a model of regional cooperation on HIV/AIDS. In the advocacy arena, we remain both a leader and a partner on the big issues affecting people living with or at risk of HIV in the U.S. and around the world.

As always, the key to successful collaboration is *you*. None of our work or our progress can happen without the sustained generous support of the individuals, foundations, corporations, and associations that believe in what we do. We are immensely grateful to every one of our donors and we hope you will continue to stand with us as we endeavor to write the final chapter on HIV/AIDS.

With gratitude,

A handwritten signature in dark ink, appearing to read "Kenneth Cole".

**Kenneth Cole**  
Chairman of the Board

epidemic through innovative research.**

# amfAR in 2011: Program Highlights

## Research

- amfAR awarded more than \$3 million in grants and fellowships to 26 researchers in 2011. Many of these awards were for cure-focused studies aimed at answering critical questions such as how, where, and why does HIV persist in infected people—even while they are on antiretroviral medication.
- amfAR continues to advance cure research through its amfAR Research Consortium on HIV Eradication (ARCHE). Marking its second year in 2011, ARCHE has already created an impressive web of partnerships that are advancing knowledge of the virus and how it might be eradicated.
- In April, amfAR co-sponsored a think tank in Baltimore that brought together more than 50 leading academic researchers, government scientists, regulators, and community advocates to identify steps that can be taken to hasten the progress of cure-related research.
- amfAR Vice President and Director of Research Dr. Rowena Johnston co-chaired—with Nobel Prize-winning scientist Dr. Françoise Barré-Sinoussi—“Controversies in HIV Cure Research,” a panel discussion held in July in conjunction with the International AIDS Society conference in Rome.
- Research studies make the greatest impact on the AIDS field and on the broader scientific community when they are published in scientific journals. In 2011, 40 scientific publications resulted from amfAR-funded research.

## TREAT Asia

- TREAT Asia (Therapeutics Research, Education, and AIDS Training in Asia) is a network of clinics, hospitals, and research institutions working with civil society to ensure the safe and effective delivery of HIV/AIDS treatments throughout Asia and the Pacific. Facilitated by amfAR, TREAT Asia seeks to strengthen HIV/AIDS care, treatment, and management skills among health care professionals through education and training programs developed by experts in the region.
- Representing more than 5,000 HIV-positive children in Asia, TREAT Asia's Pediatric Network includes 20 sites in seven countries; these sites share information and best practices in an effort to improve the quality of pediatric care in the region.
- In 2011, the US National Institutes of Health (NIH) renewed a major research grant to support TREAT Asia's work in the Asia-Pacific region for a second five-year period. This grant will continue funding one of the very few studies providing information on the treatment outcomes of HIV-infected patients in Asia.
- At the International AIDS Society Conference in July 2011 in Rome, Italy, several TREAT Asia network members and partners presented their research findings. In addition, TREAT Asia was a scientific co-sponsor of the 3rd International Workshop on HIV Pediatrics, which preceded the conference.

## Public Policy

- amfAR's public policy office in Washington, D.C., educates policy makers, the media, and the public about evidence-based policies to address HIV/AIDS in the U.S. and around the world. In 2011, amfAR continued to promote rational AIDS-related policies based on the most current scientific knowledge.
- In January, amfAR sponsored a congressional briefing, “Ending the Cycle of Mother-to-Child Transmission of HIV/AIDS,” bringing together a panel of experts from the U.S. government, foundations, and NGOs in Washington, D.C., to highlight the challenges that stand in the way of completely eradicating mother-to-child HIV transmission.

- Another congressional briefing, held in March and titled “Accelerating an HIV Prevention Revolution: A Roadmap,” focused on the importance of employing multiple strategies in order to stem the tide of new infections. Panelists included amfAR’s Senior Policy and Medical Advisor Dr. Susan J. Blumenthal, and Kevin Fenton, director of the National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention (NCHHSTP) at the Centers for Disease Control and Prevention.
- In July, amfAR organized a high-level conference that brought together many of the biggest names in HIV research, policy, and advocacy. Titled “Making AIDS History: Ending the Epidemic,” the conference featured *Hardball*’s Chris Matthews in a discussion on the future of AIDS research with NIAID Director Dr. Anthony Fauci, a panel discussion on advocacy moderated by NPR’s Cokie Roberts, and remarks by Congressional leaders including House Democratic Leader Nancy Pelosi, Representatives Barbara Lee, Henry Waxman, Nita Lowey, and Jim Himes, Senator Kirsten Gillibrand, Kenneth Cole, and Whoopi Goldberg.

## MSM Initiative

- In an effort to reduce rates of HIV infection and transmission among MSM in resource-limited countries and to increase access to HIV treatment and care, amfAR established the MSM Initiative in 2007. In 2011, amfAR made community awards totaling more than \$700,000 to 44 organizations throughout its five target regions: Africa, Asia-Pacific, the Caribbean, Eastern Europe and Central Asia, and Latin America. The awards support the work of grassroots groups working to reduce the spread and impact of HIV among MSM in hard hit regions of the developing world.

- In 2011, amfAR and Johns Hopkins University worked together to compile and edit a global report—titled “Achieving an AIDS-Free Generation for Gay Men and Other MSM”—which found that resources dedicated to addressing the epidemic among MSM were grossly insufficient, and that funding intended for this population was often diverted away from MSM-related services.
- In 2011, the MSM Initiative collaborated with the Public Policy office to launch the Global Advocacy Corps, a small grants program formed to affect national and donor policy. The goal is to make national responses to HIV/AIDS better funded, more strategic, more ambitious in terms of public health impact, and more focused on outcomes for individuals and communities affected by HIV/AIDS. Two Global Advocacy Corps Awards were made to groups in Kenya and Namibia in 2011.

## Public Information

- amfAR continued to work closely with the media in 2011 to raise the profile of HIV/AIDS, both domestically and internationally, and to help ensure the accuracy of AIDS press coverage. Articles and reports involving amfAR were carried in numerous media outlets, including *The New York Times*, *The Wall Street Journal*, *The Washington Post*, *New York* magazine, Reuters, Bloomberg News, and *The Huffington Post*.
- Major news outlets including *The New York Times*, *The Wall Street Journal*, the *Financial Times*, and *PBS NewsHour* sought commentary from amfAR’s leadership for their reports on the landmark iPrEx pre-exposure prophylaxis study announced in November 2010.
- amfAR has long benefited from the voices and the visibility of prominent spokespeople such as the late Dame Elizabeth Taylor, who passed away in March 2011. In 2011, these supporters included amfAR’s Global Fundraising Chairman Sharon Stone, amfAR ambassadors Cheyenne Jackson, Milla Jovovich, Liza Minnelli, and Michelle Yeoh, as well as Janet Jackson, Heidi Klum, Alan Cumming, Richard Gere, Whoopi Goldberg, and others.
- amfAR publishes a wide range of educational materials, program reports, and periodicals in an effort to communicate the Foundation’s message and the need for AIDS research. Periodicals produced in both print and electronic formats in 2011 included: *Innovations*, amfAR’s newsletter; the *TREAT Asia Report*, distributed widely to an international audience; and a monthly email newsletter distributed to more than 40,000.

# 2011 RESEARCH FELLOWSHIPS, GRANTS, AND AWARDS

The projects listed below were awarded amfAR funding during the period October 1, 2010 through September 30, 2011.

## amfAR RESEARCH CONSORTIUM ON HIV ERADICATION (ARCHE)

### Disulfiram to accelerate decay in HIV reservoirs in ART treated patients

Principal Investigator: Adriana Andrade, M.D., M.P.H.  
Johns Hopkins University  
Baltimore, MD  
\$112,000

### Induction of latent HIV provirus by disulfiram

Principal Investigator: Jonathan Karn, Ph.D.  
Case Western Reserve University  
Cleveland, OH  
\$39,600

### Inflammation and HIV persistence

Principal Investigator: Joseph McCune, M.D., Ph.D.  
Collaborating Investigator: Steven Deeks, M.D.  
University of California San Francisco  
San Francisco, CA  
\$270,000

### Comparing methods to measure reservoir size

Principal Investigator: Una O'Doherty, M.D., Ph.D.  
Trustees of the University of Pennsylvania  
Philadelphia, PA  
\$120,000

### Characterizing and targeting persistent HIV viremia

Principal Investigator: Sarah Palmer, Ph.D.  
Swedish Institute for Infectious Disease Control  
Karolinska Institutet  
Solna, Sweden  
Collaborating Investigator: Frederick Hecht, M.D.  
University of California San Francisco  
San Francisco, CA  
\$270,000

### Using approved drugs to target latent HIV

Principal Investigator:  
Robert F Siliciano, M.D., Ph.D.  
Collaborating Investigator:  
Janice E. Clements, Ph.D.  
Johns Hopkins University  
Baltimore, MD  
\$270,000

### Comparison of assays to measure viral reservoirs in HIV eradication

Principal Investigator: Janet Siliciano, Ph.D.  
Johns Hopkins University  
Baltimore, MD  
\$319,147

## MATHILDE KRIM FELLOWS IN BASIC BIOMEDICAL RESEARCH

### Optimizing Treatment

#### LPS, immune activation and liver disease in HIV-HBV co-infection

Megan Crane, Ph.D.  
Monash University  
Melbourne, Australia  
\$125,000

#### Identification of host proteins required for TRIM5α function.

Thomas Gramberg, Ph.D.  
Virologisches Institut-Universitätsklinikum Erlangen  
Erlangen, Germany  
\$79,916 (Phase II)

#### Determining how HIV-1 Vpu antagonizes the antiviral protein Tetherin

Matthew McNatt, Ph.D.  
The Aaron Diamond AIDS Research Center  
New York, NY  
\$125,000

### Preventing HIV Transmission

#### Structural and functional analysis of HIV-1 gp120-gp41 interaction

Andres Finzi, Ph.D.  
Dana-Farber Cancer Institute, Inc.  
Boston, MA  
\$125,000

#### Discovery of antisense-encoded proteins as novel AIDS vaccine targets

Nicholas Maness, Ph.D.  
University of Wisconsin-Madison  
Madison, WI  
\$125,000

#### Evaluation of the immunogenicity of 'evolved' stable HIV-1 Env trimers

Rogier Sanders, Ph.D.  
Academic Medical Center of the University of Amsterdam  
Amsterdam, Netherlands  
\$62,675 (Phase II)

#### Université de Montréal, Centre de Recherche du CHUM

Montréal, Canada  
\$80,000 (Phase II)

## RESEARCH FELLOWSHIPS

### Pursuing HIV Eradication

#### Characterization of HIV in the CSF during suppressive therapy

Viktor Dahl, M.D.  
Swedish Institute for Infectious Disease Control  
Karolinska Institutet  
Solna, Sweden  
\$124,995

#### Blocking latency in resting CD4+ T-cells

Suha Saleh, Ph.D.  
Monash University  
Melbourne, Australia  
\$125,000

## RESEARCH AWARDS

### Optimizing Treatment

#### Second workshop on curing HIV infection: clinical research issues

Dana Van Gorder  
Project Inform  
San Francisco, CA  
\$10,000

## RESEARCH GRANTS

### Pursuing HIV Eradication

#### The role of negative regulators of T cell activation in HIV persistence

Nicolas Chomont, Ph.D.  
VGTI-Florida  
Port St. Lucie, FL  
\$120,000

#### Characterizing the role of immune activation in HIV persistence

Christina Kitchen, Ph.D.  
University of California, Los Angeles  
Los Angeles, CA  
\$120,000

#### Discovery of novel anti-latency drugs by HTS in primary memory T cells

Vicente Planelles, Ph.D.  
University of Utah  
Salt Lake City, UT  
\$119,950

#### Role of intestinal macrophages in HIV persistence

Phillip Smith, M.D.  
University of Alabama at Birmingham  
Birmingham, AL  
\$120,000

#### New avenues for understanding and eradicating the HIV latent reservoir

Didier Trono, M.D.  
Ecole Polytechnique Fédérale de Lausanne  
Lausanne, Switzerland  
\$120,000

#### Natural epigenetic silencing mechanisms, the main hurdle in HIV eradication

Mudit Tyagi, Ph.D.  
George Mason University  
Manassas, VA  
\$120,000

## 2011 TREAT ASIA GRANTS AND AWARDS

The projects listed below were awarded amfAR funding during the period October 1, 2010 through September 30, 2011.

### **PEDIATRIC RESEARCH**

#### TREAT ASIA PEDIATRIC HIV OBSERVATIONAL DATABASE (TAPHOD)

Saphonn Vonthanak, M.D.  
National Center for HIV/AIDS, Dermatology &  
STD / Cambodia National Institute of Public Health  
Phnom Penh, Cambodia  
\$20,000

Nagalingeswaran Kumarasamy, M.D., M.B.B.S.  
YRG Centre for AIDS Research and Education,  
VHS  
Chennai, India  
\$7,500

Ketut Dewi Kumara Wati, M.D.  
Udayana University School of Medicine  
Bali, Indonesia  
\$11,250

Nia Kurniati, M.D.  
Cipto Mangunkusumo General Hospital  
Jakarta, Indonesia  
\$7,500

Revathy Nallusamy, M.B.B.S.  
Penang Hospital  
Georgetown, Malaysia  
\$2,500

Nik Khairulddin Nik Yusoff, M.D.

Hospital Raja Perempuan Zainab II  
Kelantan, Malaysia  
\$7,500

Fong Siew Moy, M.D.  
Hospital Likas  
Kota Kinabalu, Malaysia  
\$7,500

Kamarul Razali, M.D.  
Pediatric Institute, Hospital Kuala Lumpur  
Kuala Lumpur, Malaysia  
\$7,500

Jintanat Ananworanich, M.D.  
HIV-NAT / Thai Red Cross AIDS Research Center  
Bangkok, Thailand  
\$15,000

Kulkanya Chokephaibulkit, M.D.  
Siriraj Hospital Mahidol University  
Bangkok, Thailand  
\$15,000

Virat Sirisanthana, M.D.  
Chiang Mai University-Research Institute for  
Health Sciences  
Chiang Mai, Thailand  
\$15,000

Rawiwan Hansudewechakul, M.D.  
Chiangrai Prachanukroh Hospital  
Chiang Rai, Thailand  
\$20,000

Pagakrong Lumbiganon, M.D.  
Khon Kaen University  
Khon Kaen, Thailand  
\$15,000

Khu Thi Khanh Dung, M.D., Ph.D.  
National Hospital of Pediatrics  
Hanoi, Vietnam  
\$36,000

Trương Hữu Khanh  
Children's Hospital 1  
Ho Chi Minh City, Vietnam  
\$20,000

Matthew G. Law, Ph.D.  
University of New South Wales  
Sydney, Australia  
\$246,127

## TREAT ASIA STUDIES TO EVALUATE RESISTANCE – PEDIATRIC (TASER-P)

Nia Kurniati, M.D.  
Cipto Mangunkusumo General Hospital  
Jakarta, Indonesia  
\$47,370

Kamarul Razali, M.D.  
Pediatric Institute, Hospital Kuala Lumpur  
Kuala Lumpur, Malaysia  
\$47,370

Jintanat Ananworanich, M.D.  
HIV-NAT / Thai Red Cross AIDS Research Center  
Bangkok, Thailand  
\$47,370

Kulkanya Choekphaibulkit, M.D.  
Siriraj Hospital Mahidol University  
Bangkok, Thailand  
\$47,370

Tavitiya Sudjartruk, M.D.  
Chiang Mai University-Research Institute for  
Health Sciences  
Chiang Mai, Thailand  
\$47,370

Pope Kosalaraksa, M.D.  
Khon Kaen University  
Khon Kaen, Thailand  
\$47,370

Trương Hữu Khanh, M.D.  
Children's Hospital 1  
Ho Chi Minh City, Vietnam  
\$47,370

Do Chau Viet, M.D.  
Children's Hospital 2  
Ho Chi Minh City, Vietnam  
\$47,370

### Prevalence of HPV and intraepithelial neoplasia biomarkers in adolescents

Jintanat Ananworanich, M.D., Ph.D.  
HIV-NAT / Thai Red Cross AIDS Research Center  
Bangkok, Thailand  
\$35,000

### Optimizing HIV treatment for children in Asia: developing strategies for lifelong care

Praphan Phanuphak, M.D., Ph.D.  
HIV-NAT / Thai Red Cross AIDS Research Center  
Bangkok, Thailand  
\$178,698

### Pharmacokinetics of abacavir once daily vs twice daily in HIV-infected Thai children

Jintanat Ananworanich, M.D., Ph.D.  
Thai Red Cross AIDS Research Center  
Bangkok, Thailand  
\$34,138

### Interventions to promote retention in formal school system

Jintanat Ananworanich, M.D.  
HIV-NAT / Thai Red Cross AIDS Research Center  
Bangkok, Thailand  
\$10,103

### Bone mineral density among HIV-infected adolescents

Kulkanya Choekphaibulkit, M.D.  
Siriraj Hospital Mahidol University  
Bangkok, Thailand  
\$20,000 / \$5,000 (supplement)

### Treatment response of chronic viral hepatitis B to tenofovir and lamivudine-containing antiretroviral regimens in HIV-infected adolescents

Linda Aupibul, M.D.  
Chiang Mai University  
Chiang Mai, Thailand  
\$10,308

### Social support for children and adolescents with HIV by Community AIDS Service Penang (CASP)

Revathy Nallusamy, M.B.B.S.  
Penang Hospital  
Georgetown, Malaysia  
\$9,398

### Our Village: Kondal Province Takhmao District, Cambodia

John Tucker  
New Hope for Cambodian Children  
Kileen, TX  
\$82,197

### Social support for children and adolescents with HIV

Fong Siew Moy, M.D.  
Hospital Likas  
Kota Kinabalu, Malaysia  
\$10,000

## ADULT RESEARCH

### TREAT ASIA HIV OBSERVATIONAL DATABASE (TAHOD)

Saphonn Vonthanak, M.D., Ph.D.  
National Center for HIV/AIDS, Dermatology &  
STD / Cambodia National Institute of Public Health  
Phnom Penh, Cambodia  
\$20,000 / \$5,000 (Supplemental Operations  
Support)

Fujie Zhang, M.D.  
Beijing Ditan Hospital, Capital Medical University  
Beijing, China  
\$20,000 / \$5,000 (Supp. Ops. Support)

Patrick Li, M.B.B.S.  
Queen Elizabeth Hospital  
Hong Kong, China

#### Community based treatment support (Bridge Funding)

Tao Cai  
AIDS Care China  
Hong Kong, China  
\$10,000

#### Clinical epidemiology of cancer among PLHA in Taiwan

Yi-Ming Chen, M.D., Sc.D.  
National Yang-Ming University  
Taipei, China  
\$35,000 (year 6) / \$13,637 (year 5 supplement)

#### Clinical epidemiology of tuberculosis infection among PLWHA in Taiwan

Yi-Ming Chen, M.D., Sc.D.  
National Yang-Ming University  
Taipei, China  
\$104,447

#### Identifying biomarkers of anal intraepithelial neoplasia in Thai MSM

Nittaya Phanuphak, M.D.  
HIV-NAT / Thai Red Cross AIDS Research Center  
Bangkok, Thailand  
\$100,000

#### Adam's Love Indonesia

Jintanat Ananworanich, M.D., Ph.D.  
Thai Red Cross AIDS Research Center  
Bangkok, Thailand  
\$30,000

#### Immunological characterization of the neo-vagina in the context of antiretroviral pre- and post-exposure prophylaxis for the prevention of HIV infection in transgender women

Jintanat Anaworanich, M.D., Ph.D.; Frits van Griensven, Ph.D., M.P.H.  
Thai Red Cross AIDS Research Center  
Bangkok, Thailand  
\$27,195

#### Asia Pacific HIV Research Collaboration: cancer studies

Matthew G. Law, Ph.D.  
University of New South Wales  
Sydney, Australia  
\$26,655

#### Asia Pacific HIV Research Collaboration: tuberculosis studies

Matthew G. Law, Ph.D.  
University of New South Wales  
Sydney, Australia  
\$68,033

### Modeling the drivers of the HIV epidemic and outcomes of effective prevention methods in men who have sex with men: a series for The Lancet

Johns Hopkins University Bloomberg School of Public Health  
Baltimore, MD  
\$75,000

## 2011 PUBLIC POLICY AWARDS

The projects listed below were awarded amfAR funding during the period October 1, 2010 through September 30, 2011.

### Syringe Exchange in the U.S., 2010 - 2011:

Assessing a Financially Challenging Environment  
Don Des Jarlais, Ph.D.  
Beth Israel Medical Center - Edmond de Rothschild Chemical Dependency Institute  
New York, NY  
\$75,000

## GLOBAL ADVOCACY CORPS AWARDS

### Mobilizing Effective Support for Antiretroviral Therapy and Early Treatment Options Delivery in Nigeria

Vanessa Nwanguma  
Center for the Right to Health  
Abuja, Nigeria  
\$20,000

### Promoting Implementation of ARV-based HIV Prevention for People Most at Risk of HIV Infection in Uganda

Bede Eziefule  
Coalition for Health Promotion and Social Development (HEPS-Uganda)  
Kampala, Uganda  
\$20,000

# Message from the Treasurer and the Chair of the Finance and Budget Committee

We are pleased to present the audited financial statements of amfAR, The Foundation for AIDS Research, for the fiscal year ending September 30, 2011.

Although the effects of the global economic downturn persisted throughout 2011, amfAR's prudent financial management and the success of its fundraising efforts meant that the organization was able to end the year with a modest operating surplus of \$874,319. Thanks in large part to the stellar performance of the Foundation's benefit events, public support and revenue rose to \$27.2 million, 3.5 percent above FY10.

amfAR's operational efficiency during 2011 is illustrated by a low supporting services ratio—the ratio of fundraising and management expenses to total support and revenue—of 23.7 percent. And of every dollar spent, 75.5 percent was invested directly in critical program activities, demonstrating effective use of donor contributions.

The Foundation's steady growth in 2011 was accompanied by important programmatic advances. For example, new grants were awarded to collaborative teams of senior scientists pursuing a cure for AIDS through the amfAR Research Consortium on HIV Eradication (ARCHE). In only its second year, ARCHE is already producing some very promising data.

In 2011, amfAR again met the stringent requirements of governance and financial accountability demanded by the Better Business Bureau's Wise Giving Alliance and was designated a four-star charity—the highest possible rating—by Charity Navigator. The Foundation also met the strict requirements of the federal government's workplace fundraising program, the Combined Federal Campaign, as well as many state employee workplace giving campaigns.

A copy of the complete audited financial statements, prepared in accordance with generally accepted accounting principles for not-for-profit organizations as established by the American Institute of Certified Public Accountants, is available upon request from amfAR at 120 Wall Street, 13th Floor, New York, NY 10005, and can be accessed by visiting [www.amfar.org](http://www.amfar.org).

**Wallace Sheft, C.P.A.**  
Treasurer

**Michael J. Klingensmith**  
Chair, Finance and Budget Committee

## Financial Highlights

For the year ended September 30, 2011
