'River' Earrings

Nature Series, 2025, Unique

40 marquise and pear-shaped EF/IF-VVS diamonds weighing 15.02 carats

14 marquise and pear-shaped red rubies weighing 7.40 carats

18K high-polish white gold

The 'River' earrings draw their inspiration from the glistening shimmer of sunlight on moving water, their delicate movement echoing nature's quiet brilliance. Part of REZA's Nature Series, one of REZA's 12 distinctive creative universes, they embody the serenity and radiance of light in constant motion, offering a vision of beauty that feels at once timeless and alive. In this exclusive composition for amfAR, the vivid warmth of rubies and the striking brilliance of diamonds converge in harmony, each elevated to its fullest expression within a singular design.

Founded in Paris's legendary Place Vendôme by Alexandre Reza, one of the 20th century's most esteemed jewelers, REZA quickly became synonymous with rarity, artistry, and exceptional design. Today, from its home on Madison Avenue in New York, the House continues this legacy under the creative vision of Olivier Reza—melding architectural lines, innovative settings, and the world's rarest stones into creations that redefine high jewelry for the modern collector.

Dedicated to both the preservation and evolution of the art of high jewelry, REZA honors its rich legacy of craftsmanship and unparalleled stone expertise, while boldly embracing innovation. Each jewel is conceived as a treasure to transcend both time and occasion, crafted to be enjoyed in the tapestry of its wearer's life with the same pleasure and pride with which it is meticulously crafted.
