

GLENN SPIRO JEWELRY: THE LUMA EARRING

BID NOW

Gold weight: 9.00 grams

Hyceram weight: 16.23 grams

Total weight: 26.20 grams

A striking pair blending innovative materials with timeless elegance. Crafted in Hyceram Luminex and 18K red gold, the earrings are elegantly set with two pear-shaped Kyanites, totaling 4.83 carats.

The design is part of a limited-edition collection, with this pair numbered 5 in the exclusive series.

Known to collectors and aficionados, Glenn Spiro Jewelry, headed by master jeweler Glenn and his son Joe, has become one of the most renowned private jewelry houses in the world.

In their appointment-only London atelier, the former studio of fashion designer Sir Norman Hartnell, Glenn Spiro Jewelry combines exquisitely detailed settings with an eye-watering selection of unique stones. A couture piece of theirs can be years in the making and their technical mastery has gained a cult following of collectors. Glenn Spiro is renowned as having an unconventional approach to the Haute Joaillerie world, but it's the risks they take in a realm dominated by old luxury marques and multigenerational businesses that truly set them apart. The house has a nonconformist attitude to precious gemstones—they attempt the impossible and dream up imaginative designs that have never been done before. The gems are the elusive varieties that jewelers dream about, sometimes for decades, until that sought-after stone with a spellbinding hue, intensity, uniformity of color, and inner sparkle finally surfaces.

The resulting jewelry turns heads for all the right reasons, commanding attention for its originality and the confidence that it embodies.

"We don't make what people want; we make what we love—and if they love it, then great," Glenn says. "If not, we'll keep it in the safe until the right person walks through the door."
